VIA CERTIFIED MAIL P126019095

Mr. Richard Tyler
Plant Manager
Milbank Manufacturing Company
1400 East Havens Street
Kokomo, Indiana 46901

Dear Mr. Tyler:

Re: 327 IAC Article 3 Construction
Permit Application
Plans and Specifications for
Wastewater Pretreatment Facility
Milbank Manufacturing Company
Permit Approval No. 2683
Kokomo, Indiana

The application, plans and specifications, and supporting documents for the above-referenced project have been reviewed and processed in accordance with rules adopted under 327 IAC Article 3. Enclosed is the Construction Permit (Approval No. 2683), which applies to the construction of the above-referenced proposed water pollution treatment/control facility to be located at Milbank Manufacturing Company at 1400 East Havens Street in Kokomo, Indiana.

Please review the enclosed permit carefully and become familiar with its terms and conditions. In addition, it is imperative that the applicant, consulting architect/engineer (A/E), inspector, and contractor are aware of these terms and conditions.

It should be noted that any person affected or aggrieved by the agency's decision in authorizing the construction of the above-referenced facility may, within fifteen (15) days from date of mailing, appeal by filing a request with the Office of Environmental Adjudication for an adjudicatory hearing in accordance with IC 4-21.5-3-7 and IC 13-15-6. The procedure for appeal is outlined in more detail in Part III of the attached construction permit.

Plans and specifications were prepared by DMP Corporation, and submitted for review on May 27, 1998, with additional information submitted on May 29, 1998, and June 11, 1998.

Any questions concerning this permit may be addressed to Mr. Levy Soliven, of our staff, at 317/232-8658. Legal questions or questions concerning appeal procedures should be addressed to the Office of Hearings, at 317/232-8591.

Sincerely,

A handwritten signature in black ink that reads "Kenneth A. Lee". The signature is fluid and cursive, with the first and last names being more prominent than the middle initial.

INDIANA DEPARTMENT OF ENVIRONMENTAL MANAGEMENT
AUTHORIZATION FOR CONSTRUCTION OF
WATER POLLUTION TREATMENT/CONTROL FACILITY
UNDER 327 IAC ARTICLE 3

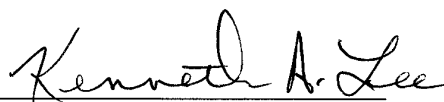

DECISION OF APPROVAL

Milbank Manufacturing Company, in accordance with the provisions of IC 13-15 and 327 IAC Article 3 is hereby issued a permit to construct the water pollution treatment/control facility to be located at Milbank Manufacturing Company at 1400 East Havens Street in Kokomo, Indiana. The permittee is required to comply with requirements set forth in Parts I, II and III hereof. The permit is effective pursuant to IC 13-15-5-3, IC 4-21.5-3-4(d). If a petition for review and a petition for stay of effectiveness are filed pursuant to IC 13-15-6, an Environmental Law Judge may be appointed for an adjudicatory hearing. The force and effect of any contested permit provision may be stayed at that time.

NOTICE OF EXPIRATION DATE

This permit and the authorization to initiate construction of this pollution treatment/control facility shall expire at midnight July 1, 1998. In order to receive authorization to begin construction beyond the date of expiration, the permittee shall submit such information and forms as are required by the Indiana Department of Environmental Management at least sixty (60) days prior to the expiration date.

Signed this 29TH day of JUNE, 19 98, for the Indiana Department of Environmental Management.

Kenneth A. Lee, Chief
Facility Construction Section
Office of Water Management

WATER POLLUTION TREATMENT/CONTROL FACILITY DESCRIPTION

Milbank Manufacturing Company produces electric meter bases. Raw material used will be pressed to specified form, machine welded, iron phosphated, assembled and shipped off site. Some of the formed boxes will be sent off site for specific plating.

Currently, continuous overflowing rinses from the process line are sent directly to sewer. The spent baths are pumped to an existing 3,500-gallon tank for batch treatment which involves proper pH adjustment. Accumulated sludges are drummed for off site disposal.

Milbank Manufacturing proposes to install a neutralization/precipitation/clarification waste treatment system in order to meet the discharge limits set forth by IDEM and Kokomo POTW. The treatment system will include a recessed chamber filter press rated at 1 cubic ft./cycle, a chemical feed system for treatment chemistry, dualized in-line feed pumps to transfer rinse waters and spent solutions. Also, a 3,166-gallon rinse flow equalization tank will be installed with an air operated diaphragm pump to feed the treatment system and a 3,500-gallon tank for spent solution holding.

CONDITIONS AND LIMITATIONS TO THE AUTHORIZATION FOR
CONSTRUCTION OF WATER POLLUTION TREATMENT/CONTROL FACILITY

During the period beginning on the effective date of this permit and extending until the expiration date, the permittee is authorized to construct the above described water pollution treatment/control facility. Such construction shall conform to all provisions of State Rule 327 IAC Article 3 and the following specific provisions:

PART I

SPECIFIC CONDITIONS AND LIMITATIONS TO THE CONSTRUCTION PERMIT

Unless specific authorization is otherwise provided under the permit, the permittee shall comply with the following conditions:

1. All local permits shall be obtained before construction is begun on this project.
2. If pollution or nuisance conditions are created, immediate corrective action will be taken by the permittee.
3. If construction is located within a floodway, a permit may also be required from the Department of Natural Resources prior to the start of construction. It is the permittee's responsibility to coordinate with that agency and obtain any required approvals if applicable. Questions may be directed to the Permit Administration Section, Division of Water at 317/233-5635.

4. Additional treatment facilities will be installed if the proposed facilities fail to provide adequate control or if necessary for compliance with more stringent Federal or State pretreatment standards or requirements promulgated subsequent to the date of this approval.
5. The Company shall comply with the requirements of the municipal sewer use ordinance and pretreatment program.
- * 6. The Company shall notify the Department of Environmental Management of the date of start-up and completion of the proposed project.
7. The method and system of sludge disposal shall be approved by the Office of Solid and Hazardous Waste Management of the Department of Environmental Management in accordance with Solid Waste Board requirements.
- * 8. Technical supervision, by a certified operator, shall be provided for operation and control of the wastewater pretreatment facilities.
- * 9. The name of certified operator (Class B) in responsible charge shall be submitted to this office.

Failure to meet guidelines as set forth in the above conditions could be subject to enforcement proceedings as provided by 327 IAC 3-5-3.

PART II

GENERAL CONDITIONS

1. No significant or material changes in the scope of the plans or construction of this project shall be made unless the following provisions are met:
 - a. Request for permit modification is made 60 days in advance of the proposed significant or material changes in the scope of the plans or construction;
 - b. Submit a detailed statement of such proposed changes;
 - c. Submit revised plans and specifications including a revised design summary; and
 - d. Obtain a revised construction permit from this agency.
2. This permit may be modified, suspended, or revoked for cause including, but not limited to the following:
 - a. Violation of any term or conditions of this permit;
 - b. Obtaining this permit by misrepresentation or failure to disclose fully all relevant facts.
3. Nothing herein shall be construed as guaranteeing that the proposed water pollution treatment/control facility shall meet standards, limitations or requirements of this or any other agency of state or federal government, as this agency has no direct control over the actual construction and/or operation of the proposed project.

PART III

APPEALS PROCEDURE

Anyone wishing to challenge this agency's decision for authorizing the construction of this facility may do so, provided that a petition for administrative review is filed as required by IC 4-21.5-3-7. The petition must be submitted within fifteen (15) days of the date of mailing of this permit notification. The petition must include facts demonstrating that you are either the applicant, a person aggrieved or adversely affected by this decision, or otherwise entitled to review by law. Additionally, IC 13-15-6-2 requires that your petition include:

1. The name and address of the person making the request;
2. The interest of the person making the request;
3. Identification of any persons represented by the person making the request;
4. The reasons, with particularity, for the request;
5. The issues, with particularity, proposed for consideration at the hearing; and
6. Identification of the permit terms and conditions which, in the judgement of the person making the request, would be appropriate in the case in question to satisfy the requirements of the law governing permits of the type granted or denied by the Assistant Commissioner's action.
7. Pursuant to IC 4-21.5-3-1(f), any document serving as a petition for review or review and stay must be filed with the Office of Environmental Adjudication. Filing of such a document is complete on the earliest of the following dates:
 - a. The date on which the petition is delivered to the Office of Environmental Adjudication, ISTA Building, 150 West Market Street, Suite 618, Indianapolis, Indiana 46204;
 - b. The date of the postmark on the envelope containing the petition, if the petition is mailed by United States mail; or
 - c. The date on which the petition is deposited with a private carrier, as shown by a receipt issued by the carrier, if the petition is sent by private carrier.
